How To Measure Your Pet

Girth: Measure around the widest part of your dog's chest, typically just behind the front legs. This is the most important measurement for a good fit.

Neck: Measure around the base of your dog's neck where a collar would naturally sit.

Length: Measure from the back of the neck to the start of Tail.

Please note the above measurements are of the garment hence if your pet measures exactly the same or little more, we recommend buying one size bigger.
